Expertise

Python   HTML

CSS   JAVA SERVER DEPLOYMENT

Currently learning JAVA

Work Experiences

Discord Community Manager   **2024**
Self-managed - [April-July]

- Managed a Discord community for over a year, fostering engagement and growth.
- Developed strategies for community moderation, content creation, and user retention.

Java and Cloud Server Host   **2024**
Self-managed - [April-June]

- Gained 3 months of experience in Java server hosting and cloud server hosting.
- Successfully set up and managed an online multiplayer arcade game server.

Technical Skills

- **Programming Languages**: HTML, CSS, Python, Java (in progress).
- **Server Management**: Java server hosting, cloud server hosting, port forwarding, SSH client setup.
- **Hardware Repair**: Proficient in laptop and PC repair.
- **Tools & Platforms**: Discord community management, online multiplayer arcade game server setup.
- **Website development:** Created multiple websites for my own using html and css.
- **Video Editing and Templates:** I mastered my video editing skills on filmora12 and adobe preimer pro for slomo.
- **Other Skills**: Network troubleshooting, community management, cloud computing.

Achievement

- Managed a Discord community of 400 members for over 1 year.
- Successfully hosted an online multiplayer arcade game server.
- Extensive hands-on experience with hardware repair and server management.
